

# High-quality precision spring manufacturing

# ABOUT IRVINE SPRINGS

Based in Irvine, Ayrshire, Irvine Springs was established in 1969 manufacturing bespoke springs for local industry.

In our 50-year history we have advised customers across the globe on spring design for optimal performance. We also work with customers to drive cost from their designs to provide them with commercial advantage. This includes surface finish to enhance performance, or where applicable, the aesthetics of the products.

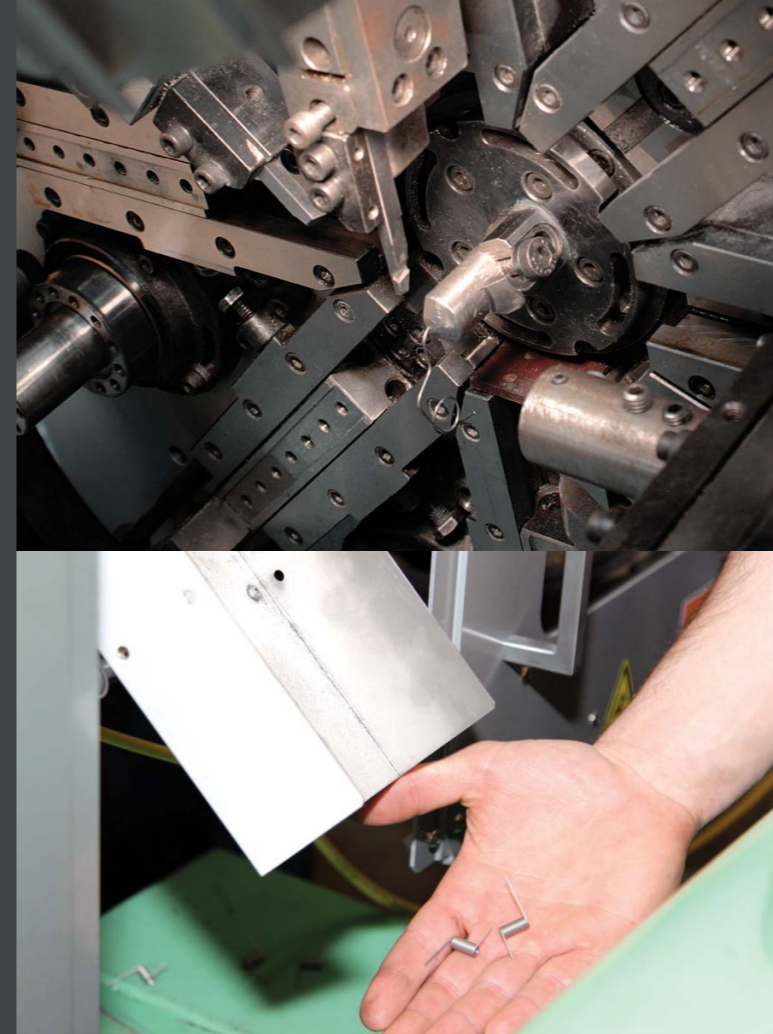

Through its reputation and engineering excellence, Irvine Springs has become a leading manufacturer of springs in Scotland with a growing number of customers throughout the UK, Europe and the rest of the world.

Our highly-skilled team of spring makers produce high-quality precision springs manufactured to your requirements in a wide range of materials to exact tolerances.

We manage the process from initial concept through design and manufacturing to final testing and delivery.

We manufacture many varieties of springs which include the following:

- Tension springs
- Compression springs
- Torsion springs
- Clock Springs
- Garter springs
- Die springs
- Wire shapes
- Flat section

## SERVICES

The products we offer are compression springs, tension springs, torsion springs, clock springs, garter springs, die springs, wire shapes and flat section. These can be manufactured in a wide range of materials with protective and decorative finishes as required.

### • Bespoke service

We are happy to meet with you at your site to discuss your requirements and to understand the environment in which our products have to perform. We can assist you in design optimisation to produce precision components to your exacting standards, delivered on time. This is not an ambition, this is what we do every day of the week.

### • The bigger picture

We understand that it is not just about the product, which is why we offer creative supply solutions such as KANBAN, consignment stock, LTA's, VMI, DLF and export shipping.

### • High-quality precision

From one to millions, each order receives the same attention to detail ensuring that we maintain our reputation for zero quality escapes.

### • Delivery

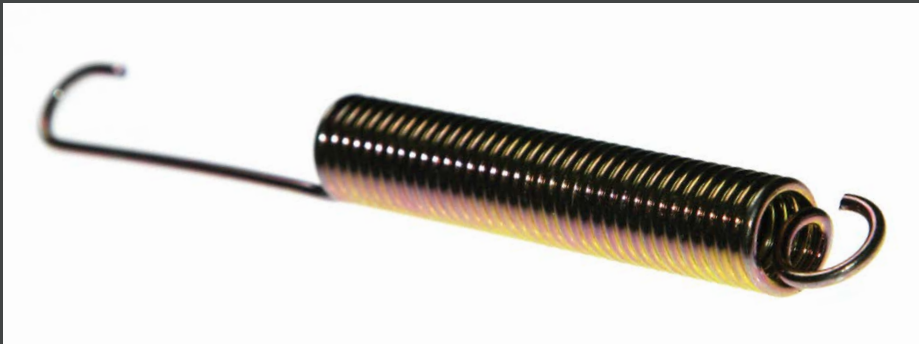

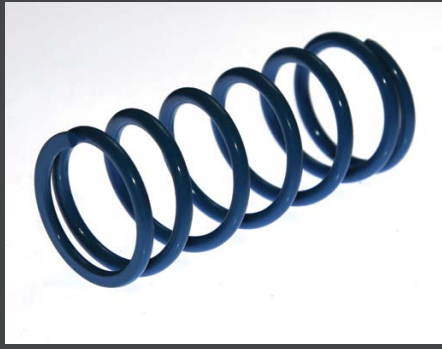

100% quality is of no importance if we don't deliver on time. From local deliveries via our own transport to tracked international shipments, we are highly experienced in meeting often demanding delivery schedules and have a passion for exceeding customer expectation.

### • Packaging

Your springs can be packed in an unlimited variety of ways to suit your needs (e.g. to avoid entanglement, we can supply on adhesive coated card, in recyclable molded plastic trays, bagged in small quantities or in labelled bags). Whatever your packing needs we would be pleased to discuss them.
