

## Our Service

- Bespoke Service** - Products to your exact specifications from initial sketch through design and manufacturing to final testing and delivery.
- Ultimate Precision** - All our products can be manufactured to your requirements in a wide range of base metal materials to exact tolerances. Protective or decorative finishes and colour dyeing are also available.
- Timely Delivery** - We aim to meet your expectations from start to finish.
- Kanban/Stock** - We have the flexibility to maintain stocks of finished product at our premises to pre-agreed levels to enable customers to optimise their stock levels.
- Packaging** - Our springs can be packed in an unlimited variety of ways to suit your needs (e.g. to avoid entanglement we can supply on adhesive coated card, in recyclable moulded plastic trays, bagged in small quantities, or in labelled bags). Whatever your packing needs we would be pleased to discuss them.

## About Us

Based in Irvine, South-West Scotland, Irvine Springs are a bespoke spring manufacturer. Owned by Indutrade UK and part of the MSP Group, we have been in the industry for over 50 years.

Through our reputation and engineering excellence, Irvine Springs has become a leading manufacturer of springs in Scotland and the UK, with a growing number of customers throughout Europe and the rest of the world.

## Our Products

We offer a range of products bespoke to your needs:

- Compression Springs
- Tension Springs
- Torsion Springs
- Garter Springs
- Die Springs
- Wireforms
- Flat Section Springs

## Sustainability

We are keen to promote environmentally-sound manufacturing practices and take our sustainability extremely seriously.

We implement ESG sustainability (environmental, social, governance) into our practices and ensure sustainable growth is at the heart of everything we do.

To hear about our latest sustainability initiatives head to our social media channels or our website [www.irvinesprings.com](http://www.irvinesprings.com).

## FAQ's

### What Quality Assurance System Do You Employ?

We are ISO 9001 2015 accredited and we use a number of production sampling techniques to verify that we have the built-in quality to everything we manufacture. Our people are important too and we operate an ongoing training and development policy so that they have the skills to meet future challenges

### Can You Manufacture Small And Large Batch Runs?

Yes, we have the capacity and the ability to produce single and high-volume production batches.

### Do You Offer A Design Service?

Yes, we have in-house ability to design springs and we also work closely with the Institute of Spring Technology to ensure we are abreast of the latest developments in the spring manufacturing industry. Tell us your requirements and we will help you make your product!

### What Is Your Lead Time?

Lead time is usually around 2 – 3 working weeks. However, this is dependent on the complexity of the spring, material and tooling involved. If lead time is key, please contact one of our sales team who will do all they can to ensure a quick turn-around.

### Are Your Products RoHS Compliant?

We manufacture products to customer-specific requirements and if the Restriction of Hazardous Substances (RoHS) is a requirement, then we will absolutely ensure that the products are compliant.

### What Applications Are Your Products Used for?

Our products are used in a wide variety of industries, such as telecommunications, electronics, electrical, computers, precision engineering, valves and controls, equipment, packaging, agriculture, renewable energy and the oil industry. Wherever a spring, wire shape or flat section is required, we can supply to bespoke specifications.

### Do You Supply Prototypes?

Yes, we can supply springs for early design concept work and prototypes if required. Please get in touch with us to see how we can help you with prototypes.

### What Are Your Opening Times?

Monday – Thursday: 8:00am – 16:30pm | Friday: 8:00am – 13:00pm.

### What Is Your Minimum Order Charge?

Because we are a bespoke spring manufacturer, we have a minimum order charge which can be found on our website. Not all springs may fall within this charge, as this is dependent on the complexity of the spring, material, and tooling involved. For an accurate quote, please contact a member of our sales team at [info@irvinesprings.com](mailto:info@irvinesprings.com).
